

Corner Country

OUTBACK NEW SOUTH WALES

Where I want to go!

Seasonally adjusted, there's an amazing campsite or bush track just waiting for you in the Corner Country. Whilst lakes and creeks are ephemeral, the outback experience remains year long.

When you have been there once, the Corner Country is a place you will want to revisit year after year. For birdwatchers, artists, bush enthusiasts or those just wanting to get away from it all, this is the place to go.

Finding the "out-of-the-way" places is not hard, or unsafe. Roads linking station properties are generally well maintained, and clearly shown on good maps.

On some station properties, and in certain locations in the National Parks, are safe, quiet, off-road spots where you can pull up alongside a creek-bed and set up camp.

No-one to bother you, nothing to do but rest, watch the sunsets, and starry skies. If you want nothing to do, that is. If not, there are 4WD station tracks to follow to hidden secrets, and well defined trails in the Parks.

For those seeking the odd luxury from home some locations have access to power and showers and laundry facilities. Just in case you need them.

So, start planning your very own Corner Country holiday now. Visit www.outbacknsw.com.au or call the Milparinka Visitor Centre on 08 80913862 for your brochure.
